CORE COURSES																																		
Anatomy I.		no	3	2+5c.pr	6	e																												
Anatomy II.		Anatomy I.					3	1+5c.pr	5	e																								
Physiology and Pathology I.		Biology and Biochemistry					2	1	4	e																								
Physiology and Pathology I., II.		Physiology and Pathology I.									2	1	4	e																				
Public Health I.		no					1	1	3	e																								
Public Health II.		Public Health I.									1	1	2	e																				
Medical Informatics I.		no																	0	2	2	pm												
Medical Informatics II.		Medical Informatics I.																					1	1	2	pm								
Health Care Management		no																													1	0	2	e
Health Communication		no					0	1	2	pm																								
First Aid		no	1	1	3	pm																												
Patient Education		no									0	2	3	pm																				
Health Psychology		no													1	0	2	e																
Health Sociology		Sociology									1	1	2	pm																				
Health promotion and health education		no													1	1	3	pm																
Health terminology		no	1	1	3	pm																												
Basic knowledge of biophysics and health technology		no					1	1	3	e																								
Basics of Nursing		no					3	2+28 c.pr	6	e																								
Dietetics		no																					1	1	3	e								
Pharmacology		no									3	0	4	e																				
Basics of cell biology and biochemistry		no	3	1	5	e																												
Microbiology		Basics of cell biology and biochemistry					1	1	3	e																								
Psychology I.		no	1	0	2	e																												
Psychology II.		Psychology I.					0	1	2	pm																								
Psychology III.		Psychology II.									1	0	2	e																				
Sociology		no	1	0	2	e																												
Ethical and legal aspect of public health care service		no	1	1	3	e																												
Research Methodology and Biostatistics I.		no													0	2	2	pm																
Research Methodology and Biostatistics II.		Research Methodology and Biostatistics I.																	0	2	2	pm												
Social policy		Sociology																									1	0	2	pm				
Nursing		Basics of Nursing									3	2+28c.pr	6	e																				
Oxiology		Basic clinical knowledge and propedeutics																					4	36c.pr	6	e								
EKG basics and diagnostics		Nursing																	2	0	3	e												
Community medicine and caregiving		no																									2	36c.pr	3	e				
Onkology and its professional nursing		Internal medicine and its professional nursing I.																									2	1+36c.pr	4	pm				
Radiology		no													1	0	2	e																
Basic clinical knowledge and propedeutics		Basics of Nursing									3	1+14c.pr	5	pm																				
Internal medicine and its professional nursing I.		no													3	2+80c.pr	10	pm																
Internal medicine and its professional nursing II.		Internal medicine and its professional nursing I.																	3	2+80c.pr	8	pm												
Surgery, traumatology and its professional nursing I.		no													3	2+80c.pr	9	pm																
Surgery, traumatology and its professional nursing II.		Surgery, traumatology and its professional nursing I.																	3	2+80c.pr	8	pm												
Basic clinical knowledge and its professional nursing I.		no																	2	1+36c.pr	5	pm												
Basic clinical knowledge and its professional nursing II.		Basic clinical knowledge and its professional nursing I.																					2	1+36c.pr	5	pm								
Psychiatry and its professional nursing		no																									3	36 c.pr	4	pm				
Neurology and its professional nursing		no																									3	36 c.pr	4	pm				
Infant and pediatric nursing		Basic clinical knowledge and propedeutics																					3	1+36c.pr	6	pm								
Obstetrics-Gynecology and its professional nursing		Basic clinical knowledge and propedeutics																					3	1+36c.pr	6	pm								

Hospice		no																									1	36 c.pr	2	e				
Gerontology and its professional nursing		no																									2	0	2	e				
Intensive therapy and and its professional nursing		no																									4	40c.pr	4	e				
English for specific purposes		no	0	2	2	pm																												
Rehabilitation		no																									1	0	3	e				
THESIS																																		
Thesis I.																			0	1	2	pm												
Thesis II.																															0	1	4	pm
Thesis III.																																	14	
ELECTIVE SUBJECTS																																		
Equal opportunities			0	1	2	pm																												
Anatomy catch-up I. II.							0	1	2	pm	0	1	2	pm																				
Self-awareness			0	1	2	pm																												
Hospital hygiene							0	1	2	pm																								
Special monitoring of the body surface							0	1	2	pm																								
Nursing and care of the disabled											0	1	2	pm																				
Patient mobilization											0	1	2	pm																				
Introduction to the higher education			0	1	2	pm																												
Transcultural nursing															0	1	2	pm																
Caring for a healthy child																							0	1	2	pm								
Emergency patient care																							0	1	2	pm								
Addictology																											0	1	2	pm				
Home care																											0	1	2	pm				
Complementary medicine																			0	1	2	pm												
Mental health																							0	1	2	pm								
Anti-aging																							0	1	2	pm								
Fitotherapy																											0	1	2	pm				
GUIDED CLINICAL PRACTICE																																		
Guided clinical practice																																420h	10	pm
