

A Short History of the Publications of the University of Miskolc

In 1929 the legal predecessor of the University of Miskolc in Sopron started the series of university publications with the title „Publications of the Mining and Metallurgical Division of the Hungarian Academy of Mining and Forestry Engineering” (Volumes I-VI.). From 1934 to 1947 the Institution had the name Faculty of Mining, Metallurgical and Forestry Engineering of the József Nádor University of Technology and Economical Sciences at Sopron. Accordingly the publications were given the title „Publications of the Mining and Metallurgical Engineering Division” (Volumes VII-XVI.). For the last volume before 1950 – due to further change in the name of the Institution – „Technical University, Faculties of Mining, Metallurgical and Forestry Engineering, Publications of the Mining and Metallurgical Divisions” was the title. For some years after 1950 the Publications were temporarily suspended. After the foundation of the Mechanical Engineering Faculty in Miskolc in 1949 and the movement of the Sopron Mining and Metallurgical Faculties to Miskolc the publications restarted with the general title „Publications of the Technical University of Heavy Industry” in 1957.

In 1990, right after the foundation of some new faculties, the university was renamed to University of Miskolc. At the same time the structure of the *Publications of the University of Miskolc* was reorganized so that it could follow the faculty structure. Accordingly seven new series were established: Series A (Mining), Series B (Metallurgy), Series C (Machinery), Series D (Natural Sciences), Series E (Legal Sciences), Series F (Economical Sciences), Series G (Humanities and Social Sciences). These series are formed by some periodicals and such publications which come out with various frequencies.

The Volume I. of Series G (entitled „Publications in Humanities and Social Sciences”) came out in 1994. From that time on its title is *Publicationes Universitatis Miskolcensis. Sectio Philosophica*. The volumes are as follows:

Volume II.	1995
Volume III.	1997
Volume IV.	1998
Volume V.	1999
Volume VI.	2000
Volume VII.	2001-02
Volume VIII.	2002-03
Volume IX.	2004
Volume X.	2005
Volume XI.	2006-07
Volume XII.	2007

Volumes I. and II. were published in Hungarian, Volume III., VI., VII., VIII. IX. X. XI. and XII. in different languages, Volume IV. and V. in foreign languages with Hungarian supplements (Addenda).
