

FACULTY OF MATERIALS SCIENCE AND ENGINEERING

Process of Final Exam (FE)

- 1) The student enters in the final exam venue one hour before the scheduled time and chooses questions with the supervision of the Final Exam Committee.

(Please arrive in time!)

- 2) After that, one hour is available for preparation (make a notes) in a separated reserved room.
- 3) According to the schedule, the student starts his/her final exam in the FE venue.
 - 3.1) The duration of FE in MSc level is 45 minutes:
 - 20 minutes for MSc Thesis defence (15 minutes presentation) - 25 minutes for answer the questions (in relation with MSc thesis, if it is possible)
- 4) After the last presentation, the FE Committee retires to evaluate the results and assess the grade/mark.
- 5) At the end of the event, the FE results (grade/mark) will be published.
