

Stipendium Hungaricum at the University of Miskolc

International Students' Experience and Career Outcomes

The University of Miskolc conducted a comprehensive career tracking survey among international students who participated in the **Stipendium Hungaricum Scholarship Programme** between 2017 and 2025. The survey, completed by **149 former and current students from 41 countries**, provides valuable insight into student experiences, academic quality, and career prospects.

A Truly International and Academic Environment

The results confirm that the University of Miskolc offers a **diverse, multicultural learning environment**, with students mainly coming from Asia, Africa, and Latin America. The programme is particularly attractive to **Master's and PhD students**, especially in the fields of **Engineering, Informatics, Earth Sciences, and Materials Science**. Almost all respondents studied in full-time programmes.

Why Students Choose the University of Miskolc

Students most frequently cited the **high academic standards, strong teaching and research opportunities**, and the chance to earn a **European-recognised degree as their main motivations**. Financial security provided by the scholarship and the University's international reputation also played an important role. Most students learned about the University through social media, **online platforms, and peer recommendations, highlighting the importance of the global student community**.

High Levels of Satisfaction

Overall satisfaction with the Stipendium Hungaricum programme and University services is very high.

- **More than 70% of students were satisfied or very satisfied** with the scholarship and campus services.
- **77% rated the quality of education as good or excellent,**
- **96% found the University's infrastructure** (libraries, laboratories, IT systems) supportive of their studies,
- Nearly all respondents felt supported by academic staff and programme coordinators.

Students also reported **feeling welcome and comfortable** on campus, describing the atmosphere as friendly and inclusive.

Career Impact and Future Opportunities

The programme has a **strong positive impact on career development:**

- **92% said their studies at the University of Miskolc positively influenced their career plans,**

- **85% reported improved employment opportunities thanks to their degree,** Graduates typically pursue careers in **education, government and international organisations, IT and technology, and the business sector.**

Areas for Continuous Improvement

Students highlighted opportunities for further development, including:

- improving student housing capacity and quality,
- strengthening English-language administrative and support services,
- expanding practical training, internships, and industry cooperation,
- increasing support for research activities and international networking.

Overall Evaluation

An **overwhelming 87% of respondents rated** the University of Miskolc's participation in the Stipendium Hungaricum programme as **good or excellent**. Most students would recommend the University to others, **emphasizing strong academic quality, supportive staff, an international community, and valuable career outcomes.**

The Stipendium Hungaricum program at the University of Miskolc offers not only a degree, but also a solid foundation for a successful international career.
